COVID-19 Update

COVID-19 CDC COMMUNITY LEVELS

LOW COVID-19 COMMUNITY LEVEL

You should:

- Stay up to date with COVID-19 vaccines
- Get tested if you have symptoms

An illustration of a woman with dark hair and a blue top, standing next to a COVID-19 test kit. The test kit includes a white box labeled 'COVID-19 Test', a white swab, and a blue and white bottle.

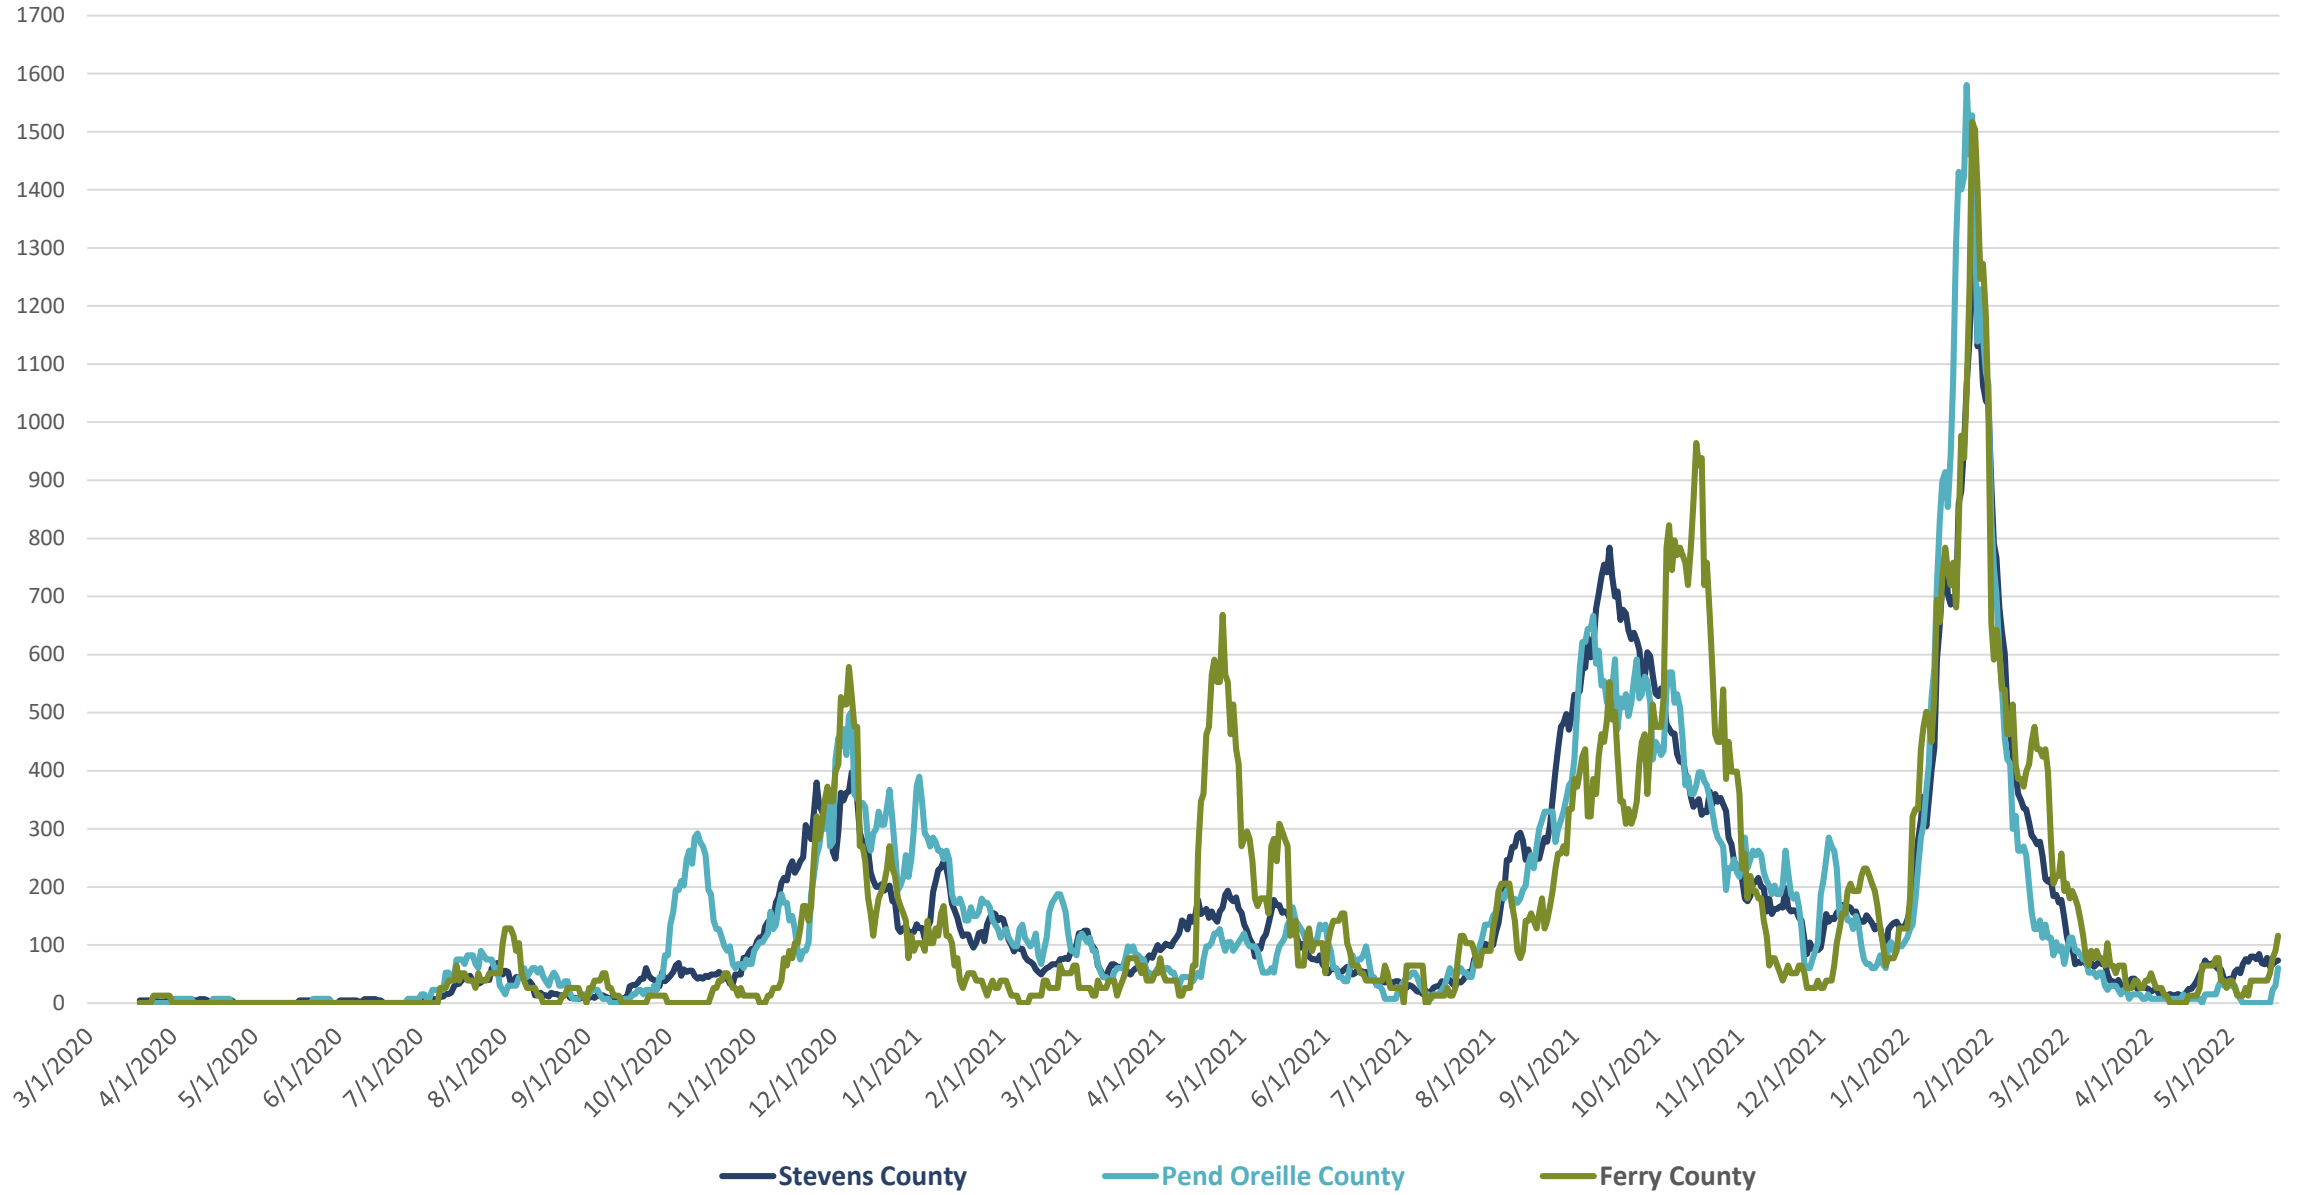

The logo for the Centers for Disease Control and Prevention (CDC), featuring a stylized eagle and the text 'DEPARTMENT OF HEALTH & HUMAN SERVICES' and 'cdc'.

CS-129621-01 02/25/2022

CDC looks at the combination of three metrics — new COVID-19 admissions per 100,000 population in the past 7 days, the percent of staffed inpatient beds occupied by COVID-19 patients, and total new COVID-19 cases per 100,000 population in the past 7 days — to determine the COVID-19 community level.

COVID-19 CASES/100,000/7 DAYS PER COUNTY

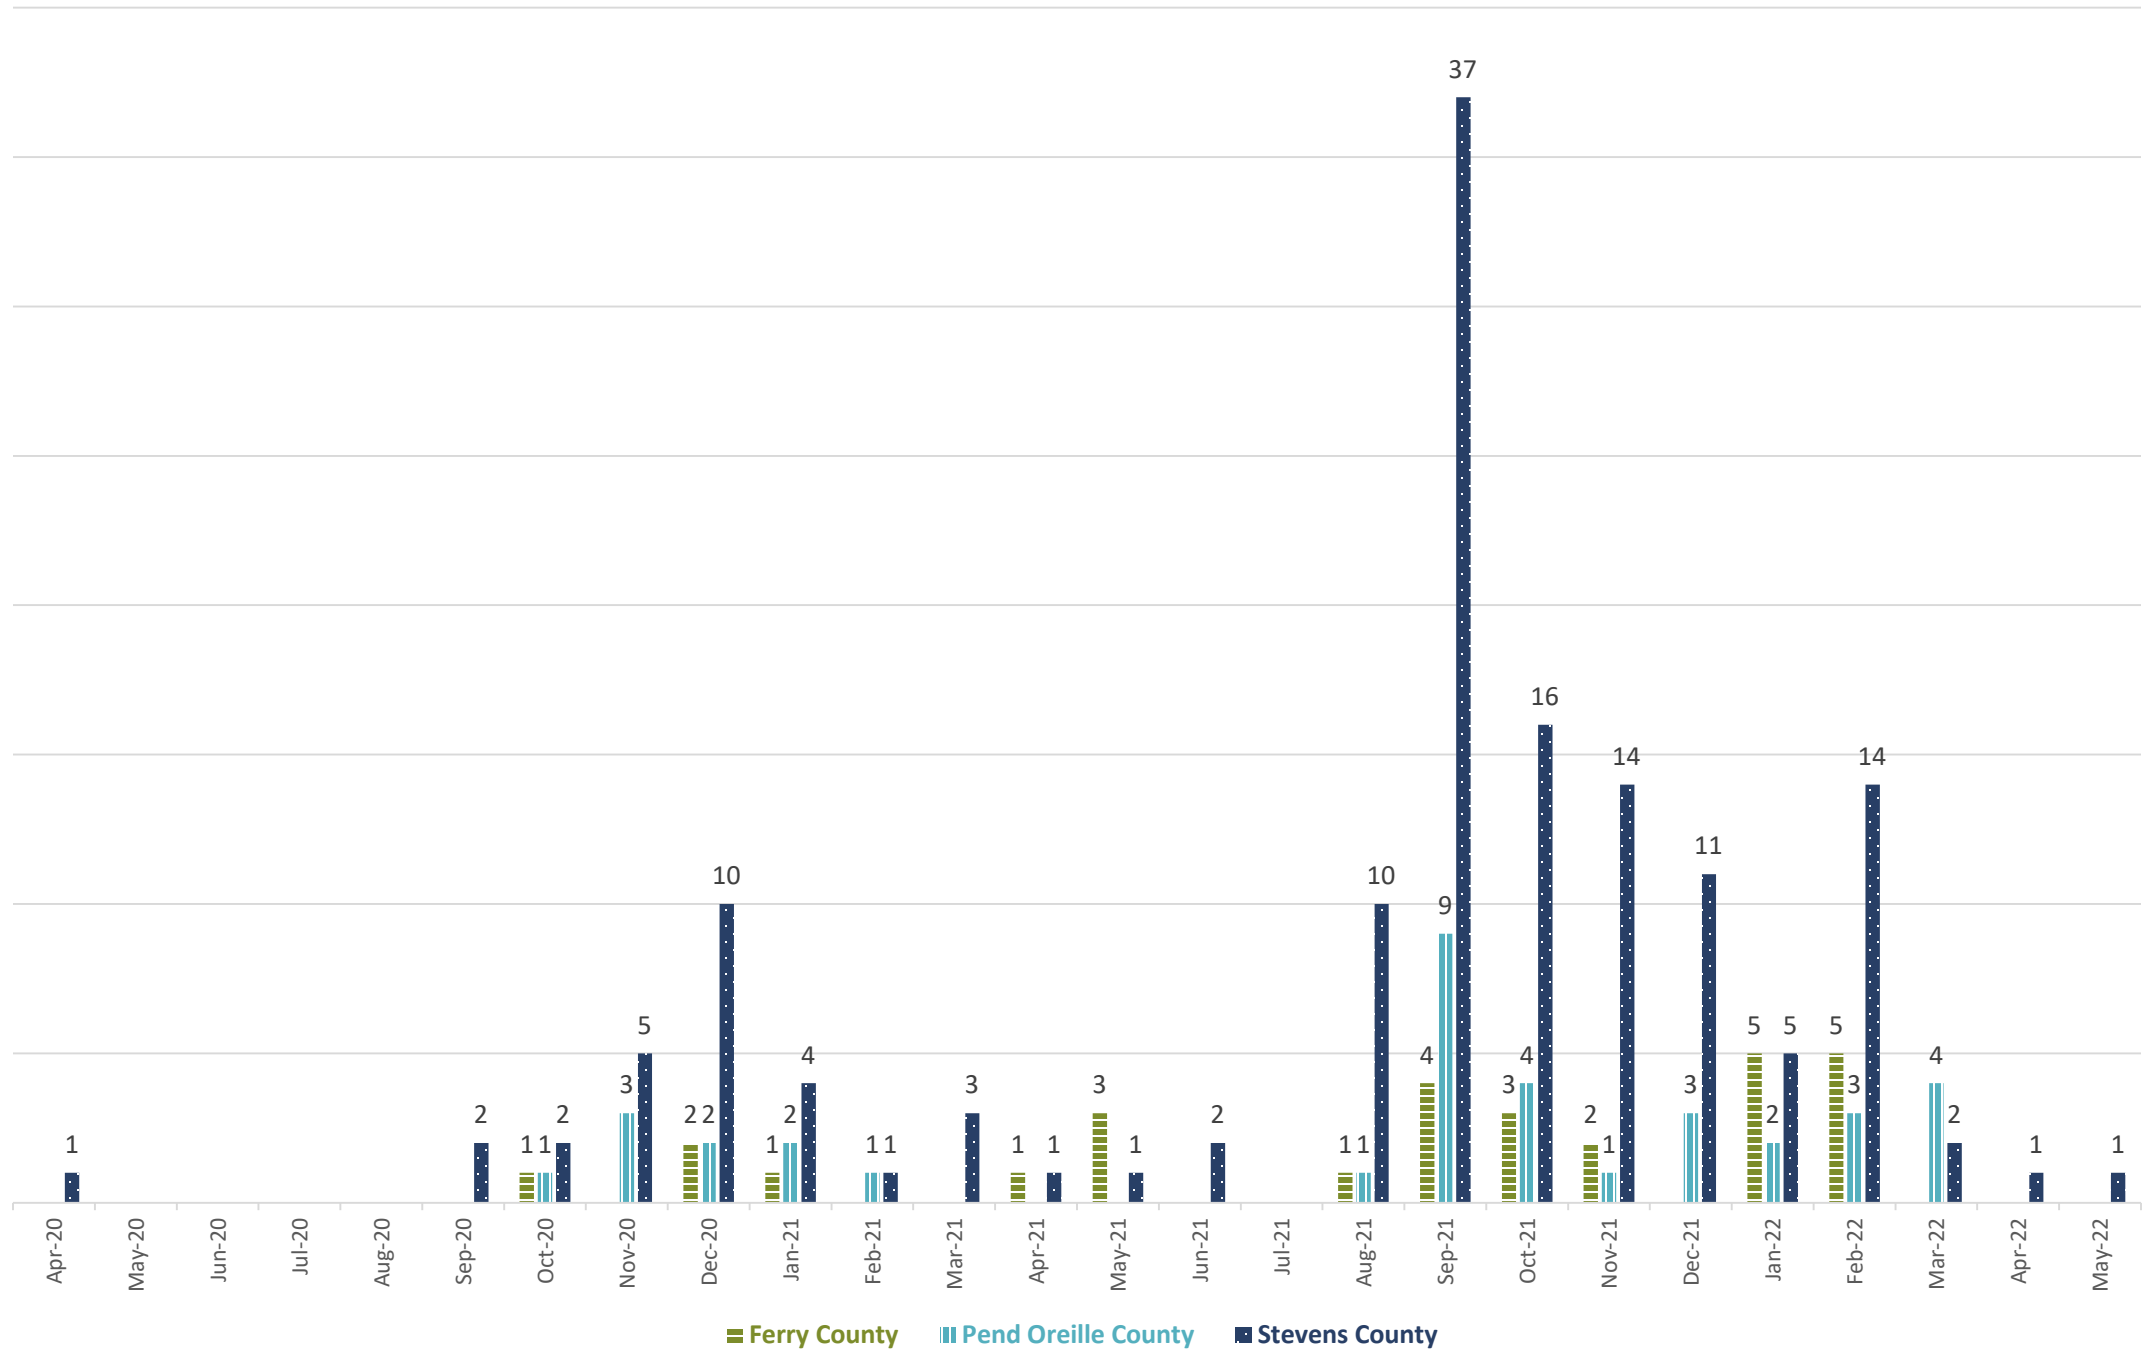

NUMBER OF NEW COVID-19 CASES IN LAST 7 DAYS (FOR THE LAST MONTH)

At-home positive COVID-19 test results reported to NETCHD are not included in new case counts. Due to reconciliation, numbers have been adjusted slightly to ensure accuracy.
