High Community Level

- Ferry County

CDC looks at the combination of three metrics — new COVID-19 admissions per 100,000 population in the past 7 days, the percent of staffed inpatient beds occupied by COVID-19 patients, and total new COVID-19 cases per 100,000 population in the past 7 days — to determine the COVID-19 community level.

COVID-19 CASES/100,000/7 DAYS PER COUNTY

NUMBER OF NEW COVID-19 CASES IN LAST 7 DAYS (FOR THE LAST MONTH)

At-home positive COVID-19 test results reported to NETCHD are not included in new case counts. Due to reconciliation, numbers have been adjusted slightly to ensure accuracy.
