

# Need Help While You Isolate or Quarantine at Home?

## Care Connect Washington

Supporting people who stay home to stop COVID-19

1 (833) 453-0336

Thank you for getting a COVID-19 test.

- Please wear a mask.
- Go directly home while you wait for your result.
- Please don't stop at the grocery store or other public places.
- Expect an important call. A public health worker will call and ask what you need while you stay home. If you need help, they will refer you to Care Connect Washington.

Care Connect Washington serves people who agree to isolate or quarantine at home for the public health-recommended period of time, but who need help doing so. The program can provide essential services, like grocery, medical and cleaning supply delivery, and household support like help with rent or bills.

### How does it work?

#### 1 Get Tested

#### 2 Stay Home

#### 3 Get a Call

#### 4 Get Help

Groceries, Supplies, Finances

### You qualify for Care Connect Washington assistance if:

- You are actively isolating or quarantining
- You are confirmed positive for COVID-19
- Case investigation or contact tracing identified you as a probable case or contact (or other proof of confirmation)
