Fever onset date: __/__/____

**B) Does the rash have any of the following characteristics?**

- Was the rash preceded by one of the symptoms listed in (C) by 2-4 days?
- Did fever overlap rash?
- Did rash start on head or face?

Rash onset date: __/__/____

Measles rashes are red, maculopapular rashes that may become confluent – they typically start at hairline, then face, and spreads rapidly down body.

Rash onset typically occurs 2-4 days after first symptoms of fever (≥101°F) and one or more of the 3 C’s (cough, conjunctivitis, or coryza).

**C) Does the patient have any of the following?**

- Cough
- Runny nose (coryza)
- Red eyes (conjunctivitis)

**D) Unimmunized or unknown immune status?**

Dates of measles vaccine:

- #1 __/__/____
- #2 __/__/____

**E) Exposure to a known measles case?**

Date and place of exposure:

**F) Travel, visit to health care facility, or other known high-risk exposure in past 21 days?**

Measles should be highly suspected if you answered YES to at least one item in B and C, PLUS a YES in D or E or F.

**IMMEDIATELY:**

- Mask and isolate the patient (in negative air pressure room when possible) AND
- Call Northeast Tri County Health at the numbers below
  - 509-684-2262 during normal business hours
  - 509-684-2262 after hours (duty officer)

**Next Steps:**

- Identify all students and staff that are insufficiently immunized. Sufficient immunity is defined as:
  - Children 1-3 years old that have 1 MMR vaccine
  - Children 4 or older that have 2 MMR vaccine
    - NOTE: Children receive their 2nd dose of MMR between 4 and 6 years old. Please identify students in this age range who only have 1 dose of MMR. They may need to get a 2nd dose promptly in an outbreak situation.
  - Adults born after 1957 that have 1 MMR vaccine or evidence of immunity (below)
- Persons are considered immune (not susceptible) to measles if any of the following apply:
  - They were born before 1957
  - Medical documentation they have had measles
  - They have laboratory evidence of immunity to measles (antibody titer)

Fax form to Northeast Tri County Health Fax# when completed 509-684-9878
